

RAL Angling Club

The Angling Club welcomes new members. There is no joining fee required only a desire to "go fishing". Any Rec Soc member may join.

The RecSec provide us with funds which go towards the purchase of Permits for the Sutton Courtenay Club. This permit provides access to some excellent stretches of the River Thames at Culham, Sutton and Appleford including Sutton Weir pool. It also provides access to the River Ock along with several small lakes.

The club members have been known to arrange a good day out, either locally or further afield.

The club arranges at least one match a month during the season (Jun - Mar). These are friendly events and it is expected that members attend at least two of the matches during the season.

There are two matches where the winners are presented with either a Trophy or a Shield. The Trophy was presented by an ex employee 'Ernie Russell' and the Shield by the Rec Soc in remembrance of one of the founder members, Peter Craske.

Encouragement is given for our retired members to stay with us.

There is also a match every year in July between DL and RAL, this is held near Birmingham, and it is very competitive. No we have not won this one yet!
