

RAL Weight Training Club

Report for RecSoc 2019 AGM

The WTC continues to be a thriving club within the RecSoc. The WTC currently has 70 members but the membership does generally increase throughout the year. Last year we had 83 members. Luckily they did not all train at the same time! The current membership is made up of 41 RAL staff and 29 other members.

The club has not purchased any equipment this year as we need to build our reserves back up after a lot of expenditure in the previous couple of years.

The WTC currently has £1406.32 available but this will reduce when the equipment has it's annual service.

The club does have funds available to purchase equipment and any request will be considered. The biggest problem, as ever, is lack of sufficient space for all of the equipment that we would like.
